

March 18, 2020

Hi Parents and Students,

As we are making this transition, the Skills Team will be available to support our students both during our scheduled Skills blocks and hopefully during other times as well. We are working on different ways to provide this support. We will be happy to get input both from students and from parents about what works and what does not.

We are also going to be working with teachers.

We are available by email as always. Skills classes will start by meeting on Zoom and information will be posted on our Moodle page. This will definitely be by trial and error. Once things get going, I will also be happy to talk with parents by phone, video conference or other options.

We are also aware that students will have different needs and engage differently with the remote learning program. Your patience is appreciated.

You will receive another email this week from us stating which Skills staff will be the main contact for your child's support plan.

Parents, please be sure that your child receives this email. We are sending it to their school accounts unless we happen to have their personal email. Be sure that they have access to their school emails. If they do not, they should be resetting their password or emailing office@kdhs.org to get support with it.

Please let us know if you have any questions.

Best of health to you all,
The Skills Team!
(Benje, Janice, Gil, and Krystal)
